RE: 2017 Trempealeau County Annual Jail Inspection

Dear Sheriff Anderson:

On November 8, 2017, the annual inspection of the Trempealeau County Jail was conducted pursuant to WI Statute 301.37(3). The inspection compared the facility and its operation to applicable state statutes and Department of Corrections' Administrative Code Chapter DOC 350. This report summarizes my findings, including the progress made following the 2016 inspection, any statute or administrative code violations, physical plant and maintenance issues, and an overall summary of facility operations. The inspection worksheet is attached to this report and includes detailed inspection results.

On the day of the inspection, there were 24 inmates incarcerated in the facility, 4 inmates being supervised on electronic monitoring, and 15 inmates that were housed in other jurisdictions.

Progress following the 2016 Inspection

- New jail management system in place.
- Officer Marsh was promoted to Corporal.
- The state of the
- County has formed a sub-committee to look at courthouse and jail space needs.
- Lexipol policy manual was approved.

Goals and Initiatives

- Installing the Lexis Nexis software through the kiosks for inmates to use for Law Library.
- Initiate use of Stellar tablets in each cell block.

Physical Environment

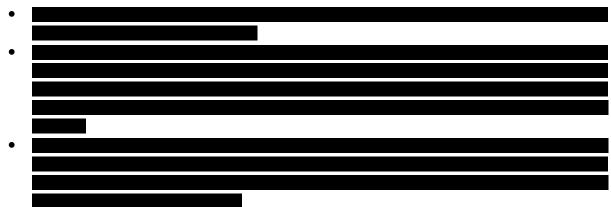

The Trempealeau County Jail was originally constructed in 1981 and consists of seven linear-designed housing units and one dormitory. The facility has a maximum rated capacity of 30 adult detainees and is not approved to hold juvenile offenders.

Summary of Jail Operations

I met with the administrative, security, healthcare, and foodservice staff to conduct the annual inspection. The site visit included a review of facility records and documentation, as well as a walkthrough of the detention areas. The attached checklist details my findings as they relate to the Department of Corrections Administrative Code Chapter DOC 350 and applicable state statutes.

The jail is old and antiquated, limiting the opportunity to provide programming, education, and proper inmate classification. The following is a list of safety and security concerns witnessed on the day of inspection.

- Inmates of different classifications were housed together, as the facility lacks adequate bed space for proper classification.
- While walking through the jail, a mattress was observed in the group holding cell. Staff stated that no other bed were available.

The overall appearance of the jail was in satisfactory condition. After a walkthrough of the detention areas, there were no repetitive complaints from inmates regarding conditions of confinement or staff supervision. The staff should to be commended for the overall positive climate and their observed professional interaction with inmates.

Violations

The following violations were documented during this inspection:

- DOC 350.20(2) Double celling On the day of inspection, inmates of different classifications where housed together in the same cell due to lack of bed space.
- DOC 350.18(6) Security The facility records provided on the day of inspection do not show that staff completed the mandatory strip search training as required per State Statue 968.255(2)(6).
- DOC 350.24(2) Discipline A review of facility records provided on the day of inspection indicated that inmates are not afforded the opportunity of making a statement on their behalf regarding minor discipline. It also indicated inmates were not made aware of their rights to appeal. It is recommended that a process be created to make sure all administrative requirements are met when administering discipline.
- DOC 350.17(10) Suicide prevention A review of facility records indicated that there is no documentation to show that a supervisor is notified of an inmate being placed on suicide watch. It is recommended that a process be put in place to document this required information.
- DOC 350.28 Indigence A review showed that facility policy does not define what indigence is. A definition is needed to meet current code requirements.

Approval

The Trempealeau County Jail is approved by the Department of Corrections for the secure detention of adult offenders with the maximum capacity of 30. This approval is contingent on the continued compliance with all applicable state statutes and administrative codes.

I wish to thank Lt. Tonya Niederkorn and her staff for their courtesy, professionalism and assistance throughout my inspection.

If you have any questions regarding the inspection results summarized in this letter and found in the inspection worksheet attached or if I may be of any assistance regarding correctional matters, please contact me.

Sincerely,

Brad Hoover

Wisconsin State Statute 302.37 (4) The sheriff or other keeper of a jail may use without compensation the labor of any prisoner sentenced to actual confinement in the county jail or, with the prisoner's consent, any other prisoner in the maintaining of and the housekeeping of the jail, including the property on which it stands. Any prisoner who escapes while working on the grounds outside the jail enclosure shall be punished as provided in s. 946.42.

- A daily inspection is conducted by jail staff of housekeeping, sanitation, and physical plant maintenance.
- The jail is constantly clean and in a healthful condition.
- Inmate areas are free of graffiti, posters, wall coverings, etching, etc.
- All surfaces, equipment, and facilities are clean and in good repair.
- Air handling systems, including ventilation screens and covers, are clean, unobstructed, and in good working order.
- Inmate personal property allowed in the housing units is subject to limitations on volume and content.
- Inmates are held accountable for making the beds, cleaning the floors, cleaning the common bathroom facilities, properly storing property, and maintaining cleanliness and order in the housing units daily.
- Inmates and staff are held accountable for housekeeping and sanitation deficiencies.
- Identified maintenance needs are addressed in a timely manner.
- Hallways are free of clutter and obstructions.
